

1 ?&#0183; Australia's biggest battery storage tender awards more than 15 GWh of projects CIS Tender 3 targeted 4 GW/16 GWh of dispatchable capacity in the National Electricity Market ...

2 ????&#0183; Australia's clean energy storage pipeline has taken another sharp step forward. The latest round of the Capacity Investment Scheme has secured more lithium-ion batteries than ...

With the growing adoption of battery storage systems in residential, commercial, and industrial settings, ensuring compliance with construction and safety ...

Business intelligence company Rystad Energy has said that almost 4 GW of utility-scale battery energy storage systems (BESS) entered construction in the first nine months of 2024.

The New South Wales (NSW) government confirmed it has provided planning approval for the proposed 500 MW / 2,000 MWh Tomago battery energy storage system to be built, operated and maintained by energy ...

As the world shifts to renewable energy, the importance of battery storage becomes more and more evident with intermittent sources of generation wind and solar playing an increasing role during the transition.

The Waratah Super Battery has become the largest BESS in Australia to come online. Image: Akaysha Energy (via LinkedIn). The first 350MW/700MWh of the Waratah Super ...

Renewable energy investments firm Copenhagen Infrastructure Partners (CIP), through its Copenhagen Infrastructure V (CI V) renewable energy fund, has commenced construction of the 240MW/960MWh Summerfield ...

Australian energy minister Chris Bowen (left) on a recent visit to Wallgrove BESS, a 50MW/75MWh project in Western Sydney. Image: Transgrid. Nearly double the ...

CBESS is one of the renewable energy generation infrastructure projects which will help to improve system security and support increased renewable energy generation in the SWIS. Learn more.

With the growing adoption of battery storage systems in residential, commercial, and industrial settings, ensuring compliance with construction and safety requirements is essential. This guide provides a ...

The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the ...

Construction proper has officially begun on a 119 MW solar farm and 100 MW / 200 MWh battery energy storage facility in Victoria's northwest with the state government saying the publicly owned project is on track for ...

This Big Battery Storage Map of Australia includes all big battery projects of 10MW or 10MWh and above. "Operating" includes those projects currently working; "Construction" means those...

Synergy, Western Australia's largest energy retailer and generator with more than one million industrial, commercial and residential customers, has announced the start of construction of Collie BESS, the largest ...

Construction will now commence on the four-hour, 350 MW Wooreen energy storage system. Once completed in 2027, the system will be capable of powering 230,000 homes over a four-hour period before needing to ...
