

What is containerised battery storage?

A long-term solution: our containerised battery storage solutions are built to last for decades. Your system's precious lithium-ion core is housed in an incredibly tough shipping-grade container. Battery storage from solar panels, wind turbines or water sources can give you the independence you need.

Who can use our rentable battery storage containers?

Private individuals and businesses can use our rentable battery storage containers in any setting where they can physically be installed. Benefits include: Energy independence: break free from the grid and power your home or workplace with clean, reliable energy that you control.

Where should batteries be stored?

Storing your batteries in a rigid shipping container, well away from other stock, can be a crucial step in ensuring their safekeeping and minimising accidents. As the images on this page show, battery storage containers can be positioned wherever you need them.

Are battery storage solutions customisable?

Battery storage solutions from TITAN are highly customisable. We are able to configure battery systems to your exact requirements and modify other elements to meet your needs. As standard, our battery storage solutions have a waterproof rating of IP54 and come with inbuilt liquid cooling.

Where can I rely on a containerised energy storage solution?

Today, we are also a name you can rely on for safe battery storage. Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over New Zealand and further afield (we have a footprint in 90+ countries).

How can containerised batteries help the transition to greener energy?

Renewable energy storage in containerised battery units is already playing a major role in our transition to greener energy. By ensuring that no energy generated by wind turbines, solar power or other eco-friendly means is lost, batteries help countries and organisations of all kinds to accelerate decarbonisation goals.

Whether you're searching for a reliable storage solution, a customized office space, or an innovative project build in New Zealand, our extensive range of containers is designed to offer ...

Lithium-ion battery energy storage container quotation in Guinea-Bissau Battery Energy Storage Systems (BESS) containers are revolutionizing how we store and manage energy from ...
