

Cheapest PV energy storage installation offer in New Zealand

How much does solar cost in New Zealand?

When you're looking at Solar, we will put you in touch with two of New Zealand's top Installers. Solar panels and solar power energy systems have only gotten more affordable as the years have gone on. Just eight years ago, a 3kW system would cost you around \$40,000, while today the same system could be installed for less than \$9,000.

How long do solar panels last in New Zealand?

See how much you can save with rooftop solar panels installed on your New Zealand home! The average solar energy system will pay for itself within seven to eight years. That leaves nearly two-thirds of the life of the solar energy system to generate clean, affordable energy for you, because most solar energy systems have a 25+ year lifespan.

How much does a 440w solar panel cost in New Zealand?

A single 440W solar panel in New Zealand costs around \$230. But panels are just one part of the puzzle - you'll also need an inverter, mounting gear, and professional installation to turn those panels into a fully functioning solar power system. Find out how to choose solar panels here. [Should I Wait For The Price Of Solar To Fall?](#)

Who are New Zealand's leading solar installers?

0800-SUNSHINE (786 744) New Zealand's leading solar installers since 2004 revolutionized renewable energy by pioneering solar technology and creating sustainable energy solutions. Proud of our exceptional team of solar engineers, technicians, and electricians, all working in-house.

How many solar panels do I need in New Zealand?

Figuring out how many solar panels you need for your home in New Zealand doesn't have to be a head-scratcher. It all comes down to your household's energy habits, roof space, and how much sunshine your area gets. Most Kiwi homes opt for systems between 4kW and 8kW, which translates to around 9 to 19 solar panels.

How do I get a buy-back charge for a solar system?

The buy-back power charges are clearly shown on their bills. Contact Energy advises that for customers looking to set up a solar system, it can install an import/export meter for either less or greater than 10kW output. Customers can apply via Contact's website.

New Zealand has a wide range of independent homes and ample solar energy resources, and residents are highly receptive to green energy, but some remote areas still suffer from unstable ...
