

Domestic energy storage tender price in Portugal 2026

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva

How much does Portugal pay for energy storage projects?

With this in mind, the Portuguese Ministry of Energy announced on July 31 that it was awarding EUR99.75 million to a call for tenders for the installation of energy storage projects totalling 500 MW. Eligible projects can receive up to EUR30 million and be implemented at the transport and distribution level by the end of 2025.

Does Portugal need energy storage?

From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on Wednesday that it has allocated EUR99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of EUR99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

Will Portugal produce 80% renewable electricity by 2026?

As Portugal launched its first tender for biomethane and green hydrogen, Portugal's new energy strategy aims to produce 80% renewable electricity by 2026, and 85% by 2030. The Plan sets a target of 20.4 GW of operational PV systems in 2030, including 14.9 GW of large-capacity plants and 5.5 GW of decentralized generation.

How many projects were selected in Portugal's 2025 energy storage procurement?

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding.

The first of Spain's new renewable energy auctions is set to take place next week, as the country offers the possibility for bidders to include energy storage in their offers.
