

What is a lithium battery warranty service?

Class 3 (types A and B) and Class 4 power grids are harsh power grid environments. The warranty service is the product assurance service provided within the product warranty scope to resolve lithium battery quality issues. The service includes help desk, remote troubleshooting, and lithium battery spare parts replacement.

Do I need an extended warranty on a lithium battery?

If extended warranty is required, consult the SSD and evaluate the maximum service life of lithium batteries based on the battery model and application environment. Extended warranty can be provided within the service life and needs to be quoted. Subject to the feedback from the local spare parts contact person.

Can extended warranty be provided within the service life?

Extended warranty can be provided within the service life and needs to be quoted. Subject to the feedback from the local spare parts contact person. Note: The SLA in the table is the standard warranty services. Warranty improvement services can be provided and quoted based on requirements of Party A.
