

Floor standing battery supplier quotation in Norway 2025

Who are the top 10 battery manufacturers in Norway?

This article will introduce the top 10 battery manufacturers in Norway, such as Morrow, FREYR Battery, and TECO 2030. These companies have made significant achievements in technological innovation, sustainable production, and international cooperation, contributing not only to the Norwegian economy, but also to the global green transition.

How will battery Norway follow the EU's Battery strategy?

Battery Norway will closely follow the EU's battery strategy and advising the authorities. Battery Norway (Norwegian Battery Platform) is a national industrial collaboration platform focused on innovation and sustainable value creation opportunities, encompassing the entire battery supply chain.

Why is battery cell production important in Norway?

Battery cell production is instrumental in ramping up the energy transition, crucial for national and regional security interests, and bound to become an important new export industry in Norway. In 2025, Morrow will commence commercial production at the Morrow Cell Factory in Arendal, in Southern Norway. The climate crisis is at a tipping point.

Can battery production create green jobs in Norway?

Battery production can create new, green jobs and more export legs for the Norwegian economy to stand on. We need that now, says CEO of NHO Ole Erik Almlid. Agder Energi and Bjørn Rune Gjelstens NOAH AS are two heavy industrial partners who are now starting Morrow Batteries.

Is Morrow batteries a good investment?

Together with Agder Energi and Bellona, NOAH AS establishes Morrow Batteries, which will produce the next generation of sustainable batteries. - This makes sense both as an investment and as a contribution to the development of climate-friendly technology, says investor Bjørn Rune Gjelsten.
