

Government procurement price of utility scale ESS in Saudi Arabia

Who are Saudi power procurement Company (SPPC) bidders?

In an ongoing procurement, the Saudi Power Procurement Company (SPPC) is tendering four 500 MW /2,000 MWh BESS projects. The list of prequalified 33 bidders was released earlier in January, revealing Masdar, ACWA Power, EDF, and TotalEnergies as competitors for 15-year storage services agreements.

Why is energy storage important in Saudi Arabia?

Energy storage is a vital component of this transition, providing grid flexibility and enabling the integration of intermittent power sources such as solar and wind. The project is among several large-scale battery storage initiatives being developed in Saudi Arabia.

How much battery storage will Saudi Arabia be able to deploy?

According to recently reported remarks from energy minister Prince Abdulaziz bin Salman Al Saud from an event held in the Kingdom, the country is targeting the deployment of 48GWh of battery storage by the end of this decade.

How many ESS bidders are there?

Of the 33 prequalified bidders, 21 applied to provide both technology and management services for the BESS facilities, while the remaining 12 applied solely for asset management roles. The full list, in English, can be seen here, and is replicated below. To continue reading, please visit our ESS News website.

From ESS News BYD Energy Storage has officially signed contracts with Saudi Electricity Company (SEC) to deliver 12.5 GWh in five BESS projects, marking the world's largest grid-scale storage ...
