

Household load-bearing power storage rack

How much weight can a power tool rack hold?

150 lbs Load-Bearing Capacity: The drill storage wall mount is made of heavy compact steel metal. After load-bearing testing, the utility racks can support up to 150 pounds on sturdy walls. Never again worry about the shelf breaking or the tool holder falling from the wall up and down. Our power tool rack can hold your power tools of any weight

How to install a power tool storage rack?

15- Min Fast Installation: The installation process of the power tool storage rack is very easy, you just need to connect the gauge steel wire and plating with screws and hang it on the wall. We offer professional manuals and accessories. You only need a few minutes to assemble the perfect power tool organizer for the workroom

What is a wall mounted tool rack?

This wall mounted tool rack features a built-in 8-outlet charging station, 4-slots for hanging rechargeable tools, 2-shelves, 4-hanging hooks, and a drill bit rack. If that's not enough space for your garage storage needs, you can connect a pair of these tool organizers to double your tool storage capacity.

How many power tools can a wall-mounted power tool holder hold?

? Super large 8 drill holders ? This wall-mounted power tool holder features a 3-layer high capacity design. You can hang at least 8 power drills, impact drills, cutting machines, angle grinders, and other hand-held electric tools. The upper two layers can accommodate batteries, chargers, and other tools.

Does the power tool organizer wall mount with charging station include surge protection?

The Power Tool Organizer Wall Mount with Charging Station is designed to provide convenient storage and charging capabilities for your power tools. However, based on the available information, it does not include built-in surge protection.

Does the power tool organizer wall mount Come with Pegboard hooks?

The Power Tool Organizer Wall Mount with Charging Station sold at Home Depot does not come with built-in pegboard hooks. It mounts to the wall using included screws and anchors in the back panel--flat against drywall, wood, or pegboard. If you need further assistance or have more questions, feel free to ask!
