

For lenders, there are still untapped opportunities in green field projects, hybrid, storage and round the clock bids, and household plus commercial and industrial (C& I) rooftop projects. All ...

Zelestra, an international company specialising in renewable energy, has obtained \$282mn financing for the Aurora hybrid project located in the Tarapacá region of ...

The foundational structure of our Base Case is likely to be familiar to market participants in the US renewable energy industry. It has been widely used for solar-plus ...

DNV has enabled Zelestra to secure a \$282 million green financing package for Chile's Aurora project--a landmark 220 MWdc solar PV and 1 GWh battery storage hybrid ...

More details have emerged on the \$510 million financing for Atlas Renewable Energy's Estepa solar-plus-storage project in the Antofagasta region in northern Chile. The ...

The Peruvian government not long ago submitted a bill to Congress, plans to renewable energy power generation tax incentives extended to December 2035, including wind, solar, bio-energy, hydro and geothermal ...

The new study finds that Peru could achieve a 51% drop in emissions by 2030 if it implements a series of proposed measures. In addition, it indicates that decarbonization would lead to the creation of more than 933,000 ...

High-profile projects, including renewable-powered government campuses, smart city control hubs, and hybrid microgrids for strategic defense sites, highlight the sector's commitment to ...

To rectify this, the government has now released tenders for renewable energy auctions for round-the-clock and hybrid projects instead of plain solar or wind tenders. Figure 1: Key Trends and ...

Meanwhile, cross-regional studies of the RET are scarce in the literature. Therefore, to best represent the current landscape of financing RE projects, several research ...

Battery energy storage systems offer power grids key opportunities for better flexibility, renewable energy integration, and reliable power supply by storing excess renewable energy during low ...

DNV has provided advisory services to Atlas Renewable Energy to secure US\$510 million in financing for the

landmark Estepa hybrid solar and battery storage project in ...

Independent energy expert and assurance provider DNV has been playing a key role in providing advisory services to Atlas Renewable Energy to secure \$510 million in ...

Lima, September 13, 2022 - Some 81% of Peru's power generation could come from renewable sources by 2030, of which 35% would be from solar and wind plants, according to the report "An Energy Transition Roadmap for an ...

The high irradiance in these areas makes them ideal for large-scale solar photovoltaic projects, capable of providing clean electricity and reducing dependence on conventional energy sources. There's no doubt that ...

DNV has enabled Zelestra to secure a \$282 million green financing package for Chile's Aurora project--a landmark 220 MWdc solar PV and 1 GWh battery storage hybrid facility.
