

# Hybrid solar storage project financing options in Estonia 2026

There was a massive boost for this effort this week when Sunly, an Estonian renewable energy producer raised 300 million euros in debt financing to accelerate the construction of 1.3 GW of solar, wind and storage capacity ...

As construction starts on the Baltics "largest" solar PV plant, Sunly expects to hybridize the project with energy storage and wind capacity. Image: Sunly Estonian independent power producer ...

The Risti solar park in Estonia promises an energy revolution. Scheduled for 2026, it will power 55,000 households, integrate hybrid solutions, and support the local economy with unprecedented funding.

The Estepa project will be a hybrid system composed of a photovoltaic solar plant with an installed capacity of 215 MW and an estimated generation of 600 GWh per year. It will also ...

" Selected technology is making it possible Sunly to add 1000 MWh of battery storage to the grid in the Baltics by the end of 2026. This setup enables flexible expansion, optimized revenues, and greater energy stability ...

Independent energy expert and assurance provider DNV has been playing a key role in providing advisory services to Atlas Renewable Energy to secure \$510 million in ...

Scatec ASA has reached financial close for the "Obelisk" hybrid solar and battery storage project in Egypt. The 1.1 GW solar plus 100 MW/200 MWh battery energy ...

The Raba Storage Project is part of Sunly's broader strategy to add 1000 MWh of battery storage capacity to the Baltic grid by the end of 2026, contributing to grid stability and ...

The project marks the EIB's first fully merchant renewable energy financing operation in the Baltic market, which revenues will rely solely on sales in the electricity market.

Sunly, a leading renewable energy producer, has raised EUR300 million in debt financing to accelerate the construction of 1.3 GW of solar, wind, storage, and hybrid parks ...

Atlas Renewable Energy has raised \$510 million in funding for its Estepa Project, a massive hybrid solar photovoltaic and battery energy storage system (BESS) in ...

The Estepa project will be a hybrid project consisting of a 215 MW solar project with an estimated generation

of 600 GWh per year. The project also includes two battery ...

Sunly, a leading renewable energy producer, has raised EUR300 million in debt financing to accelerate the construction of 1.3 GW of solar, wind, storage, and hybrid parks across the Baltics and Poland. This financing is ...

While short-term storage plays a vital role in balancing daily electricity demand, long-term storage solutions are needed to address increasing renewable energy production. ...

By the end of 2026, Sunly expects its portfolio to reach 1.6 GW, comprising large hybrid solar parks throughout the Baltics and various solar installations across Poland, cementing its role in ...

Greenergy sells 10% of Chilean megaproject to CVC DIF for \$475mn Greenergy has finalised the sale of the fourth phase of its hybrid solar-storage project in Chile to CVC DIF, valued at up to ...
