

The European Commission has approved, under EU State aid rules a EUR17.7 billion Italian scheme to support the construction and operation of a centralised electricity storage system.

A solar farm combined with a storage system is now operating where Italy's first combined cycle power plant was located. The project involved the local community at every ...

Le BESS, cioè i sistemi di accumulo a batteria, sono un elemento essenziale della transizione energetica: per il Gruppo Enel è importante giocare un ruolo da protagonista nella crescita del settore, in Italia e negli altri ...

Brussels, 21 December 2023 The European Commission has approved, under EU State aid rules a EUR17.7 billion Italian scheme to support the construction and operation of a centralised ...

In a bold move to meet EU emissions targets, Italy is accelerating its solar energy and industrial energy storage deployment under the PNIEC Italy plan. With installations ...

Battery energy storage systems (BESS) are a key element in the energy transition, with several fields of application and significant benefits for the economy, society, and the environment.

Rome - July 4, 2023 - Matrix Renewables ("Matrix"), the TPG Rise-backed global renewable energy platform, today announced that it has started a partnership with Gravel A through a ...

They specialize in long-term storage systems that effectively store green hydrogen derived from renewable energy sources like solar, wind, and hydro, ensuring sustainability and reliability for ...

Our analysis demonstrates that Italy can achieve its net zero goals through a successful transition to renewable energy by significantly accelerating renewables deployment - with total solar and ...

In the first quarter of 2024, the global energy storage market continued to show positive growth trends. Specifically in Europe, Germany, Italy, and Spain sustained rapid growth in their energy storage sectors. Notably, ...

But why should you care? Whether you're a solar developer, grid operator, or sustainability enthusiast, Italy's blueprint offers actionable insights into policy-driven growth and ...

GKN Hydrogen is dedicated to combating climate change by developing innovative and reliable energy storage systems, particularly focusing on long-term storage of green hydrogen derived ...

Le batterie a idrogeno made in Italy per accumulare energia derivante da fonti rinnovabili, in via di sviluppo da parte della Green Energy Storage, hanno compiuto un altro passo avanti. La tecnologia, in particolare la parte chimica, è ...

The development of Battery Energy Storage Systems (hereinafter "BESS") in Italy has been limited by the fact that the spread of renewable sources is...

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three ...

That"s modern Italy for you - blending historical charm with energy storage innovation. As Europe pushes toward net-zero goals, energy storage technology companies in ...
