

Why is Indonesia launching a new energy subsidy scheme?

Bambang Ismoyo, Heru Andriyanto, Jakarta - The Indonesian government is formulating a new energy subsidy scheme to better target assistance toward those who need it most, Energy and Mineral Resources Minister Bahlil Lahadalia announced on Tuesday.

Is household energy subsidy policy achieving its goals?

Household energy subsidy policy is not only not achieving its policy goals but actively worsening inequality and fossil fuel dependence in Indonesia. This brief outlines five main problems with the current system:

What are the problems with the energy subsidy system?

This brief outlines five main problems with the current system: Reforming the household energy subsidy would not only create greater social equity, but would also lead to less overall demand for energy, and encourage greater use of renewables.

Should the energy subsidy scheme be reformed?

Reforming the energy subsidy scheme would play a pivotal role in maintaining a healthy state budget in the years to come, given the plans of the new government to pursue other priorities, including the hefty free meals program, which will feed 83 million people and cost \$28 billion annually when running at full scale.
