BW ESS and Ingrid Capacity have secured a US\$65 million green loan financing from Nordea Bank for a jointly-owned 211MW portfolio in Sweden.

How much money does BW ESS invest in Ingrid capacity?

BW Group invested around SEK 1 billion into Ingrid Capacity in April 2023. According to BW ESS' website, the 14 batteries which are the subject of the green loan are between 5 MW and 20 MW in scale and "generally" have an hour of storage capacity. BW ESS is active in the UK, Australia, Italy, Germany, and Sweden.

What is BW ESS financing?

BW ESS is the BESS investment arm of shipping and energy group BW Group. The firms claimed the financing is the largest BESS financing in the Nordics to-date. Axel Holmberg, CEO of Ingrid Capacity, said: "This financing is more than a milestone--it's proof that the market sees what we see: battery storage is not just an emerging technology.

How do infra funds help wind and solar projects in Sweden?

Infra funds like GreenVoltis play a key role in providing structured financing to improve project bankability and long-term profitability. An increasing number of wind and solar developers in Sweden are expanding into BESS project development, but grid constraints remain a significant hurdle. Limited grid connection capacity is slowing deployment.

Ekü Energy has obtained £145 million in financing to support the development of grid-scale battery storage projects across the UK. The funding, provided by NatWest Bank and ...

The rapid evolution of the utility-scale battery energy storage systems (BESS) market in Australia, Europe and the US has seen the emergence of a wide range of offtake products. These arrangements offer opportunities for ...

The United States and global energy storage markets have experienced rapid growth that is expected to continue. An estimated 387 gigawatts (GW) (or 1,143 gigawatt hours (GWh)) of new energy storage ...

MW scale storage system project financing options in Sweden 2026

Energy storage owner-operator BW ESS has secured a SEK628 million (\$65.2 million) green loan agreement with Nordea Bank for its 211MW/211MWh portfolio of operational ...

Spanning four municipalities across Nueva Ecija and Bulacan, the project will generate 3,500 MWp of solar power complemented by a 4,500 MWhr battery energy storage system. The project will be developed in two ...

New Delhi | 08 May 2024 -- In a significant step forward for India's energy transition, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy ...

Mufasa stands out as the largest utility-scale battery storage project in the Netherlands to be fully financed with over EUR 350 million in non-recourse project financing. This milestone demonstrates the confidence that ...

On 28 April 2025, BW ESS, through a partnership with Ingrid Capacity AB, announced that it had entered into a green loan agreement with Nordea in order to finance a ...

Ingrid Capacity's 12 MW battery energy storage site in Gävle, Sweden. SEB Nordic Energy has formed a strategic partnership with energy storage company Ingrid Capacity ...

The green loan agreement was signed with Nordea Bank and is BW ESS' first external financing transaction, the company said on Monday. According to it, this is the largest battery energy storage system (BESS) ...

BW ESS has secured a SEK 628 million green loan from Nordea Bank to finance its 211 MW/211 MWh battery storage portfolio in Sweden, marking the largest BESS financing deal in the Nordics to date.

Scatec ASA has successfully reached financial close for its large-scale "Obelisk" hybrid solar and battery storage project in Egypt, marking a major milestone in the country's ...

The majority of newly installed large-scale electricity storage systems in recent years utilise lithium-ion chemistries for increased grid resiliency and sustainability. The capacity of lithium ...

The rapidly evolving landscape of utility-scale energy storage systems has reached a critical turning point, with costs plummeting by 89% over the past decade. This dramatic shift transforms the economics of grid-scale ...

The stage 1 of the Bungama BESS project is expected to reach commercial operations in the first quarter of 2026. Wärsilä; will supply the battery energy storage systems for the project and provide a long-term service ...

MW scale storage system project financing options in Sweden 2026

Gothenburg, 27 February 2025 - RES, the world's largest independent renewable energy company, has successfully completed the sale of a fully ready-to-build 70MW/160MWh battery ...
