

Does base power offer a battery backup plan?

Many companies offer home battery backup plans tied to a solar installation, but few, if any, have been offering the types of products and services like Base Power, said Chris Boyer, associate professor for electrical engineering at the University of Texas at Arlington.

Is base power a good investment?

The sizable investment delivers a major vote of confidence in Base Power's approach to a market that's been tough for American companies to crack in a scalable way: connected, distributed energy.

Is base power a good alternative to a backup generator?

"It's a great opportunity for people who want an alternative to a backup generator," he said. "Most of the outages in Texas are less than a couple of hours, so it makes a lot of sense." Base Power's system has homeowners paying a \$3,000 one-time installation fee.

According to the report, BESS facilities have already proven to be a critical component of Texas' energy mix by helping the state maintain reliable, cost-effective and dispatchable power in ...
