

9 ????· Servotech Renewable Power System, a leading player in India's solar solutions industry, has been awarded a 1.2 MW grid-connected rooftop solar project by Northern ...

On February 28, the Gansu Provincial Development and Reform Commission released the "List of Major Provincial Construction Projects for 2025," which includes over 20 ...

This situation's creating a perfect storm for user-side energy storage projects - decentralized systems that let factories, commercial complexes, and even homeowners store renewable ...

The 60 MW/80 MWh project, situated in Kuching, the capital of Sarawak, employs a prefabricated, cabin-style, air-cooled lithium iron phosphate (LiFePO4) battery ...

This is North Asia's energy storage revolution in action. With registered energy storage projects multiplying faster than matryoshka dolls, North Asia (including China's ...

On June 13, the Japan Organization for Metals and Energy Security (JOGMEC) selected seven role model projects aiming for business scale-up and cost reduction by 2030 as Japanese ...

Lessons Learned from Emerging Economies The Supercharging Battery Storage Initiative would like to thank all authors and organizations for their submissions to support this publication. This ...

In the "14th Five-Year Plan" for the development of new energy storage released on March 21, 2022, it was proposed that by 2025, new energy storage should enter the stage of large-scale ...

The Department of Energy Office of Electricity Delivery and Energy Reliability Energy Storage Program would like to acknowledge the external advisory board that contributed to the topic ...

Let's cut to the chase: North Asia grid-side energy storage investment isn't just about batteries. It's about power grids doing yoga - bending without breaking when renewable energy does its ...

The global energy storage market size was more than USD 19.74 billion in 2025 and is anticipated to grow at a CAGR of over 13.6% between 2026 and 2035, driven by ...

Looking ahead, the North Asia model's being replicated in Kazakhstan and Mongolia, with customized adaptations for colder climates. The base has essentially become a living ...

Through a 330MW/660MWh gravity energy storage system, the project aims to achieve true green hydrogen and ammonia production. The gravity energy storage project will ...
