

# Notice on the implementation of new energy storage development

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

What is the 14th five-year plan for energy storage?

The "14th Five-Year Plan" has specified development goals for energy storage also on the provincial level. During the "14th FYP" period, 25 provinces and cities plan to complete 77.65 GW new type storage installation. That scale is more than twice the "14th FYP" target (30 GW) set by the NEA.

What are the application scenarios for energy storage systems?

There is an extensive range of application scenarios for industrial and commercial energy storage systems, including industrial parks, data centers, communication base stations, government buildings, shopping malls and hospitals.

Why is investor participation important in the energy storage industry?

Investor participation is beneficial for the development of the energy storage industry. Facing trends, they should keep a cool head in assessing business models to identify high-quality segments and targets.

How much money did energy storage companies raise in 2022?

In 2022, they accounted for 90% of global energy storage-related fundraising deals (China for 46%, the US for 31%, and Europe for 13% respectively), raising USD 2.9 billion, USD 2 billion, and USD 800 million, respectively (Figure

What is NEA energy work 2023?

Technological breakthrough and industrial application of new type storage are included in the 2023 energy work of the National Energy Administration (NEA).<sup>2</sup> Energy electric industry is required to develop safe and economical new types of energy storage batteries.

5 ???&#0183; Announced by the National Development and Reform Commission (NDRC) and the National Energy Administration (NEA), the new plan is expected to drive CNY 250 billion (\$35.1 ...

DOE's Office of Electricity Grid Storage Launchpad, hosted at DOE's Pacific Northwest National Laboratory (PNNL). Image: US Department of Energy The US Department of Energy (DOE) has released its draft Energy ...

...

On March 5, the Shandong Provincial Energy Bureau issued a notice on the pilot implementation details of

# Notice on the implementation of new energy storage development

source-grid-load-storage integration, encouraging long-duration energy storage ...

China has released an implementation guideline on strengthening the integration of new energy vehicles (NEVs) with the power grid, according to the National Development and ...

This document identifies energy storage as a key element of the decarbonisation of the sector and support energy security. It promotes the high-quality and large-scale development of new ...

Alliance for Clean Energy New York ACE NY generally supports the underlying components of NYSERDA's Bulk Energy Implementation Plan (IP) and more specifically supports: Use of the ...

Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of ...

However, while the installed capacity is growing rapidly, new energy storage is still facing the problem of low utilization rate. There are currently four major revenue models for ...

Under the direction of the national "Guiding Opinions on Promoting Energy Storage Technology and Industry Development" policy, the development of energy storage in China over the past five years has entered ...

? Summary ?The latest "14th Five Year Plan for Energy Storage Development" provides a lot of policy support for innovative new energy storage, and the spring of new energy storage ...

Confronted by the severe impact of climate change, China advocates a global community of shared future, greater international cooperation on energy governance, and a new round of ...

On March 21, 2025, the New York Public Service Commission (PSC) approved the draft implementation plan for the New York State Energy Research and Development Authority's (NYSERDA) bulk energy storage program--with a ...

3 ???&#0183; On September 12, 2025, the National Development and Reform Commission (NDRC) and the National Energy Administration issued a notice on the "Action Plan for Large ...

On 15 July, national plans for energy storage were set out by the Chinese National Development and Reform Commission and National Energy Administration. The main ...

As the conventional energy resources are limited and environmental problems are becoming increasingly prominent, new energy resources, being environmental friendly and ...

4 ???&#0183; China on Friday unveiled an action plan to promote the development of new forms of energy

## **Notice on the implementation of new energy storage development**

storage between 2025 and 2027, amid efforts to support green energy transition and ...
