

The start of 2024 saw the Edwards & Sanborn project, featuring 3,287MWh of battery storage alongside 864MW of solar PV, come fully online. Image: Terra-Gen As we welcome the end of another exciting, if ...

On November 10, 2020, the National Energy Administration published a list of its first batch of science and technology innovation (energy storage) pilot demonstration projects. The list of ...

During the "Twelfth Five-Year Plan" and "Thirteenth Five-Year Plan" periods, to adapt to the rapid development of new energy and UHV power grids, pumped storage power ...

Abstract: The development of energy storage technologies is still in its early stages, and a series of policies have been formulated in China and abroad to support energy storage development. ...

In recent years, new energy storage technologies (excluding pumped hydro), led by electrochemical energy storage, have entered the global spotlight. According to public industry ...

Despite the effect of COVID-19 on the energy storage industry in 2020, internal industry drivers, external policies, carbon neutralization goals, and other positive factors helped maintain rapid, large-scale energy storage growth ...

This report was prepared by DNV in the course of performing work contracted for and sponsored by the New York State Energy Research and Development Authority (hereafter "NYSERDA"). ...

On September 26, the Guangzhou Development and Reform Commission solicited public opinions on several measures to support the high-quality development of the new energy ...

In recent years, new energy storage technologies (excluding pumped hydro), led by electrochemical energy storage, have entered the global spotlight. According to public industry data, newly installed capacity of energy storage projects in ...

With the proposal of the "carbon peak and neutrality" target, various new energy storage technologies are emerging. The development of energy storage in China is ...

The State Council released a circular on the implementation plan to promote the high-quality development of new energy in the new era, drawn up by the National Development ...

Local governments are encouraged to study and introduce relevant reform measures and carry out reform pilot projects. On the basis of in-depth exploration of energy ...

CARVER, Mass., Sept. 10, 2025 /PRNewswire/ -- Plus Power announced it is now operating its Cranberry Point Energy Storage facility in Carver, Massachusetts, the largest utility-scale ...

China has opened a "golden circuit" in developing its new-type energy storage, as a number of provinces are stepping up efforts to apply new-type energy storage technologies, ...

The rise of battery energy storage systems (BESS is the acronym) offers a way to bank power generated from new sources, such as solar panels and offshore wind turbines, and ...

China has opened a "golden circuit" in developing its new-type energy storage, as a number of provinces are stepping up efforts to apply new-type energy storage technologies, in a bid to ...
