

Investment bank RBC said the economic cost of the blackout could range between 2.25 billion and 4.5 billion euros, blaming the Spanish government for being too ...

24 June 2025, MADRID -- Global energy storage owner-operator BW ESS and Getxo-based energy storage developer Ibersun have signed a joint venture to develop, in its first phase, 2.2GW of utility-scale...

The solar photovoltaic (PV) sector in Europe is on the brink of transformative growth as we approach 2025. With an accelerating shift toward renewable energy, solar PV is poised to play a central role in the continent's ...

UPCOMING EVENT Battery Business & Development Forum 2025 Would you like to meet the BW ESS team? Join the Battery Business & Development Forum in Frankfurt on July 16, organized in partnership between ...

Explore the current state of residential solar adoption in Spain in 2025. Learn about key challenges, incentives, and opportunities for homeowners looking to invest in solar energy.

Swiss energy storage owner-operator BW ESS has formed a joint venture (JV) with Spain-based Ibersun, aiming to develop at least 2.2 GW of utility-scale battery energy ...

In May, Spain's electricity prices hit historic lows, driven by record solar energy production. Discover how this shift benefits Energy Nordic customers and signals a sustainable ...

Spain's solar PV industry has undergone a significant transformation, particularly in the industrial sector, highlighting the growing trend towards self-consumption for energy cost reduction and sustainability.

LCOE and value-adjusted LCOE for solar PV plus battery storage, coal and natural gas in selected regions in the Stated Policies Scenario, 2022-2030 - Chart and data by the International Energy Agency.

The 2024 Summit included innovative new features including a "Crash Course in Battery Asset Management", Ask-Me-Anything formats and debate-style sessions. You can expect to meet and network with all the key ...

Executive Summary In this work we describe the development of cost and performance projections for utility-scale lithium-ion battery systems, with a focus on 4-hour duration ...

UPCOMING EVENT Battery Business & Development Forum 2025 Would you like to meet the BW ESS

team? Join the Battery Business & Development Forum in Frankfurt ...

This is an extract from a recent report "National Survey Report of PV Power Applications in SPAIN 2023" by IEA. The targets for photovoltaic (PV) energy in Spain are outlined in the "Integrated National Energy and ...

Renewables generated 52.1%, up to 12,202 GWh of electricity, with wind power being the first source of generation in Spain for the fourth consecutive month with 24.6% of all electricity production ...

Renewables generated 52.1%, up to 12,202 GWh of electricity, with wind power being the first source of generation in Spain for the fourth consecutive month with 24.6% of all ...

Spain's solar energy market is projected to double its installed capacity to 72.32 GW by 2029, driven by government incentives and falling PV installation costs, creating ample opportunities for renewable energy businesses.
