

Release of energy storage tender exceeded expectations

When should a battery energy storage system be commissioned?

The battery energy storage systems (BESS) should be commissioned within 12-18 months. The international open call, dubbed Almacenamiento GBA -AlmaGBA, was launched in February as part of a series of measures aimed at guaranteeing the reliability of energy supply in Argentina. (USD 1.0 = EUR 0.860) Loading...

Will NDRC remove mandatory energy storage requirements for renewable projects?

The tender follows February's "Document No. 136" from the National Development and Reform Commission (NDRC), which removed mandatory energy storage requirements for renewable projects.

Will a 1.3 GW battery storage tender lead to a more robust energy future?

Make sure that these groundbreaking projects end successfully and the fruits of their experience help form a more robust energy future--not only in Latin America, but everywhere. Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

What does China Energy Engineering Corporation's landmark procurement mean for energy storage?

China Energy Engineering Corporation's landmark procurement signals a shift toward market-driven energy storage, with bids reflecting aggressive cost-cutting and rising industry consolidation.

Can energy storage be a reliable source of energy?

As the opportunity to build energy storage as a reliable source in grids and to decarbonize becomes critical on a global stage, the oversubscribed tender launched by Argentina demonstrates the demand for scalable and bankable C&I energy storage systems projects, as well as the efficiency of collaborating with the government in their realization.

Get latest information related to international tenders for energy storage Government tender document, energy storage tender notifications and global tender opportunities from world wide

Enlight Renewable Energy (NASDAQ: ENLT) has won bids for two energy storage facilities in southern Israel through the Israel Electricity Authority's first availability tariff tender. The facilities, Neot Smadar and Ohad, ...

Enlight has approximately 8 GWh of Mature 1 storage projects that are expected to enter into operations by 2027. In addition, the Company has a portfolio of energy storage assets in ...

Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target.

Release of energy storage tender exceeded expectations

The Minns Labor Government is taking further action to build a reliable, affordable energy system by supporting 3 new long-duration storage projects. The latest tender ...

China Energy Engineering Corporation (CEEC), a state-owned infrastructure giant, has launched one of China's largest energy storage procurements to date, tendering 25 GWh of lithium iron phosphate (LFP) ...

A spokesperson for the electricity transmission system operator (TSO) Terna has revealed huge interest in the energy storage-specific Centralized Allocation Mechanism for Energy Sustainability (MACSE) tender ...

Request for tender Once you have prepared the request for tender (RFT) to select and formally engage the preferred tenderer, you will need to: gain approval to release the tender ...

Lithuania has announced a EUR 102 million (\$ 105 million) energy storage tender in a bid to procure balancing services to the transmission system operator and ensure the resilience of its grid. The Ministry of Energy ...

Let's face it - keeping up with energy storage tender lists can feel like chasing a moving target. But in 2025, these lists aren't just bureaucratic paperwork - they're golden ...

Key Findings Standalone Energy Storage Systems (ESS) are rapidly emerging as a key market, with 6.1 gigawatts of tenders issued in the first quarter of 2025 alone, accounting for 64% of the ...

According to the tender's terms, after supplying power at the availability tariff rate for five years, the Company may transition to selling electricity into the deregulated market as well as ...

The renewable energy landscape is witnessing a transformative shift, with bidding processes increasingly favoring innovative solutions like Round the Clock (RTC) energy, Firm ...

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded ...

Reports into the performance of two large-scale battery energy storage systems (BESS) in the Australian state of Victoria have been published, showing that both performed as expected, or better, in 12 months of operation.

"The first tender for generation and long duration storage has been completed, exceeding its generation target in supporting 1,395 MW of new infrastructure, alongside the ...
