

Rooftop solar battery project financing options in Romania 2025

How is Romania supporting rooftop solar?

Romania supports rooftop solar installations through the Casa Verde Fotovoltaice (green PV home) scheme, which is part of the national net metering regime. According to the latest statistics from the International Renewable Energy Agency, Romania had 1.39 GW of solar installed by the end of 2020. Romania is also promoting rooftop PV deployment.

How much energy does Romania have in 2025?

At the beginning of 2025, Romania boasts approximately 3,000 MW in wind energy and 1,500 MW in solar energy. An additional 2,424 MW in wind and solar projects is expected to be operational in 2025, attracting over EUR2 billion in investments. Romania's Energy Goals for 2030: Achieve over 32,000 MW in total capacity by 2030.

How much money will be invested in Romania's energy sector?

Today, the Minister of Energy, Sebastian Burduja, announced on Facebook that an additional EUR150 million will be invested in Romania's energy sector. "I am pleased to announce that the Ministry of Energy is launching a new call for projects financed through the Modernization Fund, aimed at investments in energy storage capacities (batteries).

Who can participate in a new energy storage project in Romania?

Eligible participants include Romanian economic operators - micro-enterprises, SMEs, large companies, newly established entities, and public institutions. The projects must focus on building new energy storage capacities in Romania," the minister stated.
