

Rooftop solar storage supplier quotation in Vietnam 2025

Does Vietnam have a rooftop solar market?

The rooftop solar market in Vietnam has witnessed remarkable growth, with the total capacity for solar power reaching approximately 16,567 MW by the end of 2022. Notably, rooftop solar alone contributes over 9,000 MW to this figure, underscoring the significant role of rooftop installations in the nation's renewable energy portfolio.

Why are rooftop solar systems important in Vietnam?

In the bustling urban centers of Vietnam, rooftop solar systems are indispensable. These systems help balance energy consumption and reduce electricity costs for consumers, particularly in densely populated areas.

What policies support rooftop solar power adoption in Vietnam?

Government policies in Vietnam that support rooftop solar power adoption include feed-in tariffs, Direct Power Purchasing Agreements (DPPA), and draft decrees that promote self-produced and self-consumed solar energy. These measures create a favorable environment for solar energy development.

How many rooftop solar systems are installed in Viet Nam?

By the end of December 2020, a total of 105,212 rooftop solar systems (RTS) with a capacity of 9,730.87 MWp were installed in Viet Nam (end of November 2020: 74,281 systems/2,875.5 MWp). During December 2020, 30,931 rooftop solar systems with a capacity of 6,855.4 MWp were newly installed (see Figure 1).

Who are the major players in Vietnam's rooftop solar market?

The major players in Vietnam's rooftop solar market include local companies such as SolarBK, TTC Group, and Sao Mai Group, alongside international firms like SunPower and First Solar. Their involvement is crucial to the market's growth and development. Head of Business Development | HR & Payroll Services at InCorp Vietnam.

How many rooftop solar systems will be installed by 2025?

The program aims to install 100,000 Rooftop Solar (RTS) systems or the equivalent of 1,000 MWp by the end of 2025. Furthermore, the support of the rooftop solar market is one of the key policy targets and part of the VEPG Policy Recommendations that were endorsed at the 2nd High-Level Meeting of the VEPG in November 2018.

On March 3, 2025, the Vietnamese government issued Decree No. 58/2025/ND-CP, which provides detailed regulations on several aspects of the Law on Electricity ...

Hayleys Solar, the renewable energy arm of Hayleys Fentons, is one of the most trusted service providers for solar power in Sri Lanka, specialising in renewable energy and energy storage solutions for domestic,
