

Are smoothie cups plastic?

In fact, some of our 11 best smoothie cups are plastic bottles. They are, however, all made with BPA-free plastic that ensures no harmful chemicals will leak into your drink. If you are still on the fence about plastic smoothie cups, you can choose from our top recommendations for the best steel and glass smoothie cups.

How do smoothie cups work?

All you have to do is blend your favorite ingredients in a powerful blender, pour them in a smoothie cup, and you'll have yourself the yummiest smoothie ready in minutes. Smoothie cups are made for your convenience and allow you to store and drink your favorite smoothies, whether you're at home, in the car, at work, or taking a walk.

How do I store my smoothies?

The best way to make and store your favorite smoothies is in a smoothie cup that you can store for later use and carry to the gym, on your commute, and anywhere else as well.

Can a smoothie Cup have two different lids?

With this smoothie cup, you can switch between two different lids depending on your beverage of choice: One fits a reusable straw for shakes and smoothies, while the other features a narrower opening, which is great for sipping on drinks like juice or hot coffee.

Can you drink a smoothie from a bottle?

You can either drink your smoothie directly from the bottle or use the cap as a cup. You can also use the spoon to eat food items that you decide to store in the bottle, such as fruit or oatmeal. [6. Elk and Friends Smoothie Cups Check Current Price on Amazon](#)

Should you use a portable Cup for smoothies?

Sipping your freshly pressed juice couldn't be easier (or colder). If smoothies are a staple of your commute or workout routine, having several portable cups to cycle through can be nice (at least if you dread washing dishes as much as this writer does).

They're cheaper, easier to eat from than mason jars, and less likely to break. Buy frozen fruit in as much bulk as you can get away with, the smoothies stay good for a very long time. Store your ...
