

Solar with battery supplier quotation in Zambia 2026

Why should you invest in a photovoltaic system in Zambia?

Zambia provides optimal conditions for photovoltaic (PV) with average irradiation rates of 5.5 kWh/m². To harvest that huge source of energy we provide a wide range of photovoltaic solutions for the residential, business and social sector. In general, PV systems can be divided into on-grid and off-grid systems.

Why should you choose a solar pump system in Zambia?

Zambia has one of the biggest water resources in Sub-Saharan Africa and our solar pump systems will enable you to access those resources at any place. Either for residential use, irrigation of farm land or industrial applications, solar pumps will ensure an independent water supply at your location.

Why do you need a split unit system in Zambia?

Split-unit systems are ideal solutions for the tourism and social sector as well as bigger apartment buildings. Load shedding is a constant problem in Zambia which can cause devastating revenue losses. Our backup systems will help you to be prepared in case of power outages.

Why should you choose a solar distributor?

As a leading solar distributor, we offer top-tier brands at competitive prices and technical support to help you scale faster and deliver quality installations every time. From inverters, batteries, and panels to expert training and after-sales service, we provide everything you need to complete projects confidently.

How do I contact a solar company?

For any inquiries, questions or commendations, please call: +260971459548 or fill out the following form. Success! Message received. We provide high quality solar and backup solutions for a fair price. Either residential or business, we will find the right system for you.

Why do you need a backup system in Zambia?

Load shedding is a constant problem in Zambia which can cause devastating revenue losses. Our backup systems will help you to be prepared in case of power outages. We design solutions that will secure your electronic devices like computers, laboratory equipment or even the complete electricity supply of shopping malls.
