

# Successful bid price of residential solar battery project in Egypt 2025

What is Scatec - Egypt's first hybrid solar & battery project?

This project marks a significant milestone as it represents the country's first hybrid solar and battery initiative. With an investment of approximately USD 590 million, Scatec aims to boost Egypt's renewable energy capacity, contributing to the nation's sustainability goals.

What is the obelisk solar and battery storage project?

The project is set to unfold in two phases, with the first phase targeting completion by mid-2026. The Obelisk solar and battery storage project will be developed in two distinct phases. The initial phase encompasses the installation of a 561 MW solar plant alongside a BESS capable of storing 100 MW/200 MWh of electricity.

How does the EBRD invest in Egypt?

The EBRD's areas of investment in Egypt include the financial sector, agribusiness and manufacturing and services, as well as infrastructure projects in the power, municipal water and wastewater service sectors, and contributions to upgrading the transport sector.

How can solar power and battery storage improve grid stability?

The combination of solar power generation and battery storage presents numerous advantages for energy management and reliability. By integrating these technologies, Scatec is set to enhance grid stability while addressing fluctuations associated with variable renewable resources like solar energy.

\$479M Boost for Egypt's First 1GW Solar-Battery Project by AfDB, EBRD, BII The project, to be developed by Obelisk Solar Power SAE and led by renewable energy company Scatec ASA, will be located in the Nagaa ...

In December 2023, Scatec - which already operates 380 MW at Benban - signed a cooperation agreement with the EEHC for the development of a 1 GW solar and 200 MWh battery project, which will be the first utility scale ...
