

Why is ups a sustainable company?

Our broad footprint enables us to see how changes in societal trends like e-commerce and other developments impact climate, air quality and other global challenges. Our purpose encompasses the sustainability issues that matter the most to our stakeholders. UPS is a company with a proud past, and an even brighter future.

Who is ups & how does it work?

We operate one of the largest airlines and one of the largest fleets of alternative fuel vehicles under a global UPS brand. We deliver packages each business day for 1.6 million shipping customers to 10.1 million delivery customers in over 200 countries and territories.

Why should you choose ups?

We attract and retain long-term customers by providing high-quality transportation and logistics services and expertise. From our signature vehicles to our courteous and professional drivers, the UPS brand stands for reliability, trust, quality, and service innovation.
