

Today's investment commitment aims to advance a manufacturing expansion in the United States that could enable American-made batteries to satisfy 100% of domestic energy storage project ...

/PRNewswire/ -- Tyba, a leading energy storage optimization platform, today announced \$13.9 million in Series A funding led by Energize Capital. The round...

Paris, April 13, 2015 Saft, world leader in the design, development and manufacture of high-tech batteries for industry, is working with ENERCON, the wind turbine and energy converter ...

?How fast can you install a home energy storage system? Tired of complex installations and endless setup times? Say hello to the future of residential energy storage with the Lenercom ...

Portland General Electric, the utility serving Portland, Oregon, announced Friday it is putting in the second-largest battery storage installation in the United States, at 400 MW of ...

More than 1.1 GWh of energy storage, the majority of it developed alongside solar projects, is due to come online by the end of next year after three more big US funding ...

Eskom and Hyosung Heavy Industries, one of the appointed service providers for the Eskom Battery Energy Storage System (BESS) project, unveiled the first of its kind ...

Project Innovation This project supports the deployment and demonstration of Thermal Energy Storage Systems (TESS) for packaged HVAC systems at ten commercial ...

Existing storage technologies such as lithium-ion batteries are an order of magnitude too expensive for multi-day storage applications and are plagued by considerable ...

Developers expect to bring more than 300 utility-scale battery storage projects on line in the United States by 2025, and around 50% of the planned capacity installations will be ...

Logan City Light & Power's first energy storage system uses Eos Energy zinc hybrid batteries and a WATTMORE Energy Management System. The project uses Eos ...

Project Benefits By providing inherently low-cost, safe, and compact energy storage using only earth-abundant, non-toxic materials, Noon's new battery technology promises an ideal solution ...
