

Wall mounted battery tender price in Israel 2026

How much does a battery storage project cost in Israel?

The Israeli Electricity Authority (IEA) has awarded contracts for 1.5 GW of high-voltage battery storage capacity across 11 projects to be developed in three regions of Israel. The tender, which attracted 11 bidders proposing 29 projects for a total capacity of 4 GW, set capacity tariffs ranging from US\$49.41/kWh to US\$74.20/kWh.

How many mw can a battery store in Israel?

Israeli renewable energy developer Enlight has won grid connection rights for 300 MW of battery storage capacity in a national tender, enabling the construction of systems that can store between 1,300 and 1,900 MWh of energy.

How much does it cost to build a storage facility in Israel?

The two facilities - Neot Smadar and Ohad in southern Israel - will operate under regulated tariffs for five years before gaining merchant market access. The projects must begin operations by 2028, with construction costs estimated at \$210-250 million. This latest award accounts for 20% of the capacity allocated in Israel's first storage tender.

How many advanced-stage storage projects will Enlight be operating by 2027?

The company reports 8 GW of advanced-stage storage projects globally targeted for operating by 2027. The scope represents a significant expansion for Enlight, which has grown from an Israeli solar developer founded in 2008 to operating renewable projects across three continents.
