

# What is the new energy storage policy document

Does the energy storage strategic plan address new policy actions?

This SRM does not address new policy actions, nor does it specify budgets and resources for future activities. This Energy Storage SRM responds to the Energy Storage Strategic Plan periodic update requirement of the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. § 17232 (b) (5)).

What are the changes to planning legislation for energy storage projects?

The changes to planning legislation for larger energy storage projects were first announced back in October 2019 to allow planning applications to be determined without going through the Nationally Significant Infrastructure Project (NSIP) process.

Why is DOE investing in energy storage?

The underlying motivation for DOE's strategic investment in energy storage is to ensure that the American people will have access to energy storage innovations that enable resilient, flexible, affordable, and secure energy systems and supply, for everyone, everywhere.

What is a storage management plan (SRM)?

This SRM outlines activities that implement the strategic objectives facilitating safe, beneficial and timely storage deployment; empower decisionmakers by providing data-driven information analysis; and leverage the country's global leadership to advance durable engagement throughout the innovation ecosystem.

Why is the energy storage industry shrinking?

Under the influence of policy shifts, technological iterations, price competition, and other multiple factors, the energy storage industry continues to show a trend of stronger leading enterprises and shrinking living space for small and medium-sized manufacturers.

What is a new energy price settlement mechanism?

On the other hand, it provides support for wind and solar new energy through the establishment of a "New Energy Sustainable Development Price Settlement Mechanism" (referred to as the "Settlement Mechanism" or "Mechanism") to promote the sustainable development of new energy.

6. The "Action Plan for the Large-Scale Construction of New-Type Energy Storage (2025-2027)" (hereinafter referred to as the "Plan") is a key policy document in China's efforts ...

As the world shifts toward a more sustainable energy future, two essential innovations are emerging as key
