

# Wholesale residential ESS price list in Singapore

What is ESS access & how does it work in Singapore?

Led by EMA, the ACCESS programme helps to facilitate ESS adoption in Singapore by promoting use cases and business models. It also looks at securing space, marrying demand with solution, and facilitating regulatory approvals for ESS deployment. Singapore's First Utility-scale Energy Storage System

Why should ESS be a part of the wholesale electricity market?

The ESS will participate in the wholesale electricity market to provide services that are necessary to mitigate intermittency caused by solar, as well as reduce peak demand. It will also provide insights into the performance of ESS under Singapore's hot and humid environment and aid in establishing technical guidelines for such deployments.

What is Singapore's first utility-scale energy storage system?

Singapore's First Utility-scale Energy Storage System Through a partnership between EMA and SP Group, Singapore deployed its first utility-scale ESS at a substation in Oct 2020. It has a capacity of 2.4 megawatts (MW)/2.4 megawatt-hour (MWh), which is equivalent to powering more than 200 four-room HDB households a day.

What is energy storage system (ESS)?

Energy Storage Systems act like giant batteries that store excess energy for future use. While there are economic and technical factors to consider in deploying Energy Storage System (ESS), it can also bring multiple benefits to the power system and consumers:

How much power does the ESS have?

It has a capacity of 2.4 megawatts (MW)/2.4 megawatt-hour (MWh), which is equivalent to powering more than 200 four-room HDB households a day. The ESS will participate in the wholesale electricity market to provide services that are necessary to mitigate intermittency caused by solar, as well as reduce peak demand.

What is a market support fee?

This fee is reviewed annually to recover the costs of operating the electricity wholesale market and power system. Market Support Services Fee (Paid to SP Group). This fee is reviewed annually. This is to recover the costs of billing and meter reading, data management and retail market systems. Network Cost (Paid to SP Group).

From water heater to ceiling fan installations, we're happy to be an affordable electrician in Singapore. No hidden fees, only transparent electrician prices.
